Description for Lenovo Legion 5 Pro 16IAH7H Gaming Laptop, 16" WQXGA 165Hz, Intel Core i9-12900H, 16GB RAM, 512GB SSD, RTX 3060, Single B...

- 12th Gen Intel® Core™ processors
- NVIDIA® GeForce RTX™ 30 Series graphics for high-resolution gaming with the Legion AI Engine
- World's first 40.64cms (16) gaming display with up to 165Hz refresh rates
- 3D Nahimic drastically improves your gaming enjoyment from the get-go
- Single Backlit Keyboard

Desktop-caliber gaming happens with Intel®

With revolutionary performance and efficiency cores, 12th Gen Intel® Core™ processors enable seamless streaming, editing, gaming, and recording, delivering responsiveness where you need it most. Intel® Thread Director and up to Intel® WiFi 6E support keep everything lag-free. At the same time, Intel® Turbo Boost Technology boosts framerate in peak loads, so nothing slows you down.

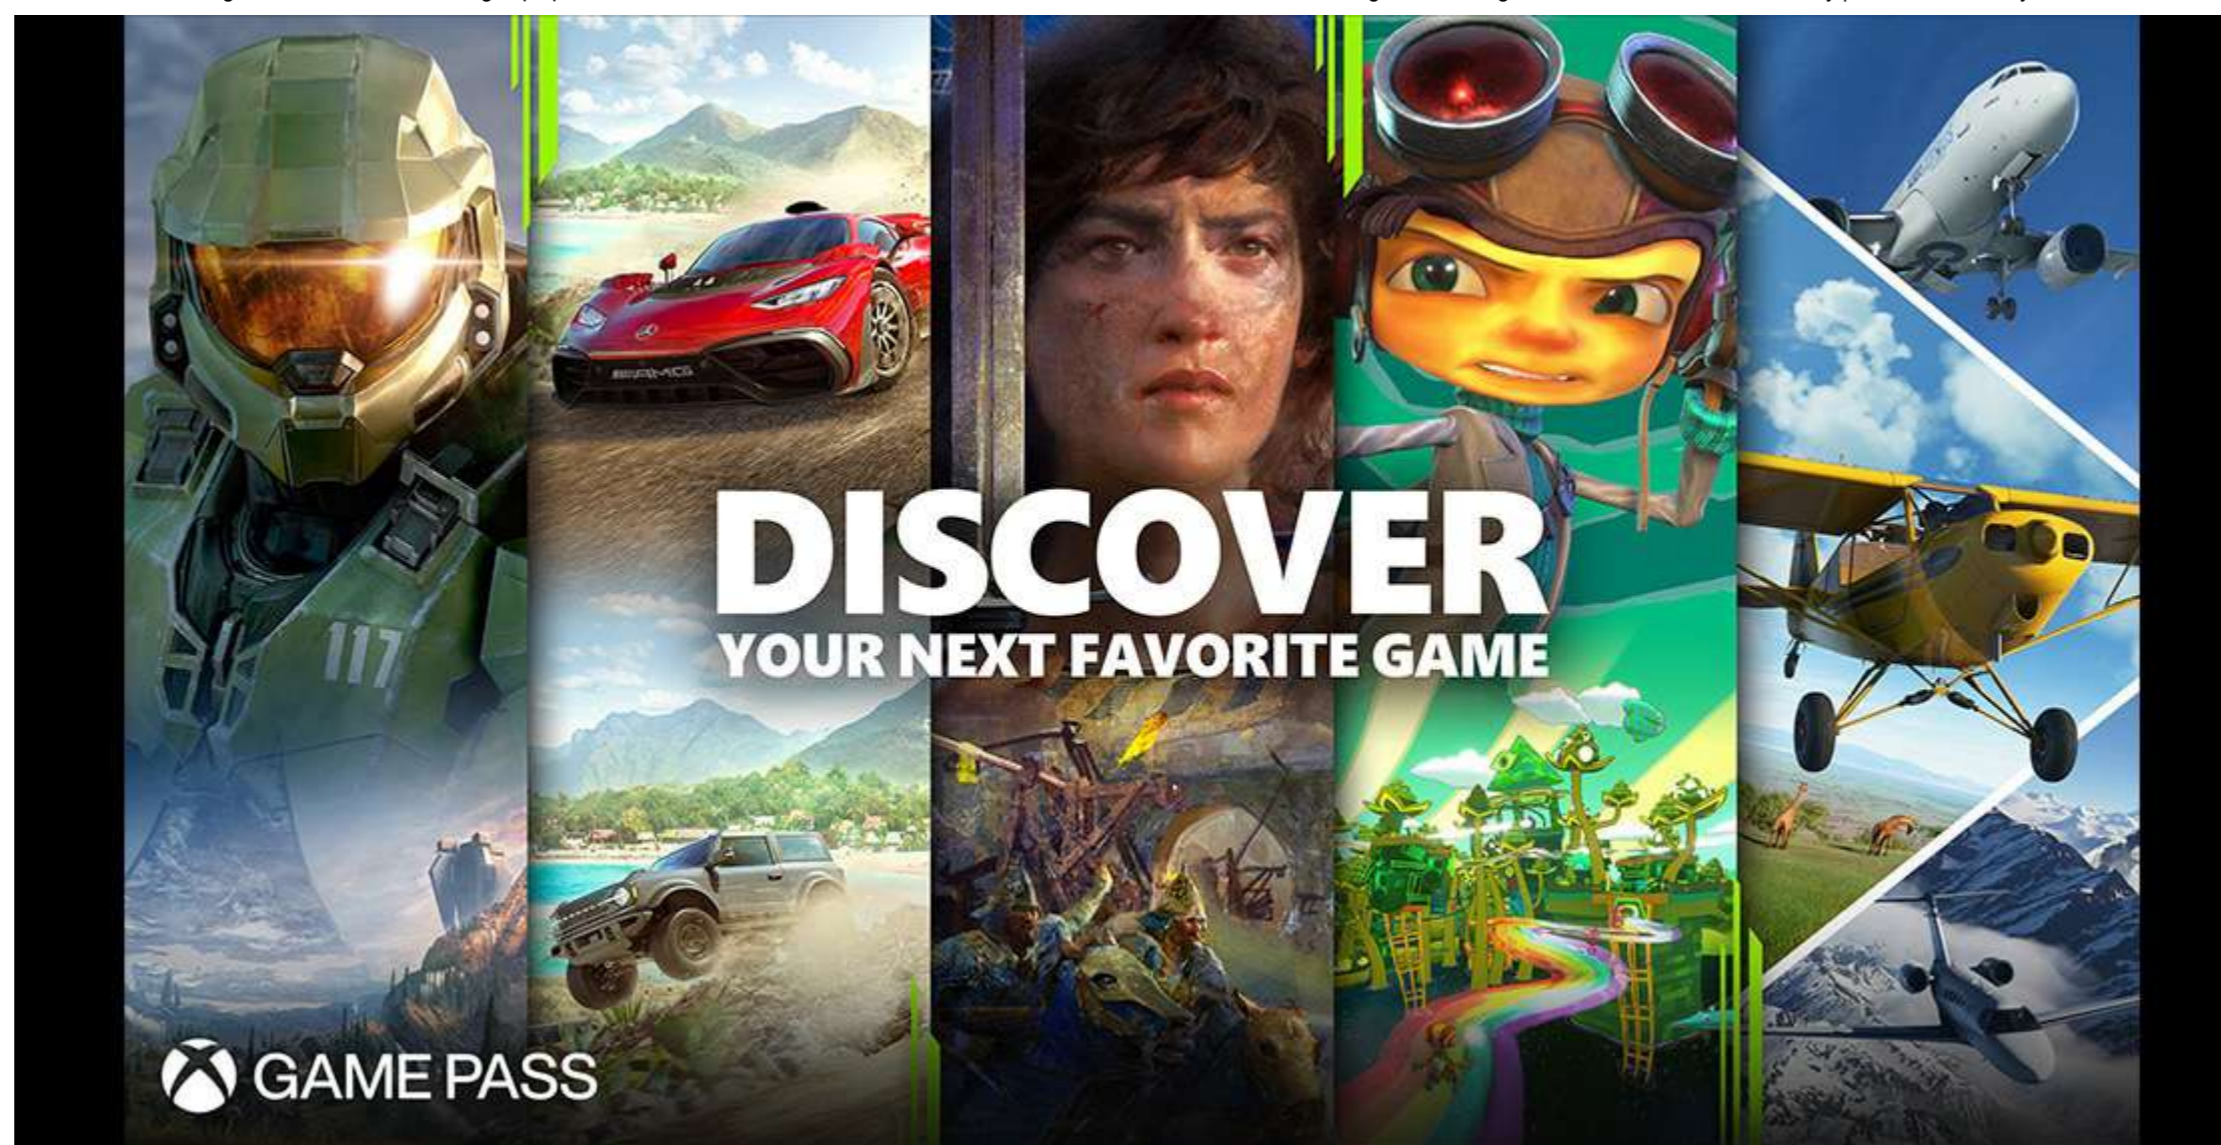

Ultimate performance for gamers and creators

Experience ultimate performance with the latest NVIDIA® GeForce RTX™ 30 Series Laptop GPUs for gamers and creators with maximum graphical power. Supercharged with Ray Tracing Cores, Tensor Cores, and streaming multiprocessors, as well as AI-Tuned DLSS, the GPU's thin, light design delivers the most realistic ray-traced graphics, cutting-edge new features, and the power of AI.

Play 100+ high-quality Games with Game Pass included

Play over 100 high-quality games with your new Lenovo Legion laptop and three months of Xbox Game Pass—including EA Play. With new games added all the time, there's always something new to play. Download and play in full fidelity or play console games from the cloud with connected controller. See xbox.com/subscriptionterms

Rise fast, rise first

Never miss a thing with the world's first 16" WQHD+ gaming display with up to 240hz refresh rates, 100% sRGB color accuracy, and Overdrive Technology. VESA DisplayHDR™-certified, the display clocks incredible 3ms response times and comes with Dolby Vision™ support, TÜV Rheinland certification for low blue light, and NVIDIA® G-Sync. Your rivals never stood a chance.

Maximize your frames, revolutionize your gaming

The Lenovo Legion AI Engine cultivates innovation, intelligence, and high performance. It dynamically channels any unused power from the CPU to the GPU or vice versa, based on where it's needed most. It's not magic, it's just machine learning. As well as custom-tuned profiles, enjoy maximum frame rates on many of the most popular AAA titles and new releases in Auto-Detect mode.

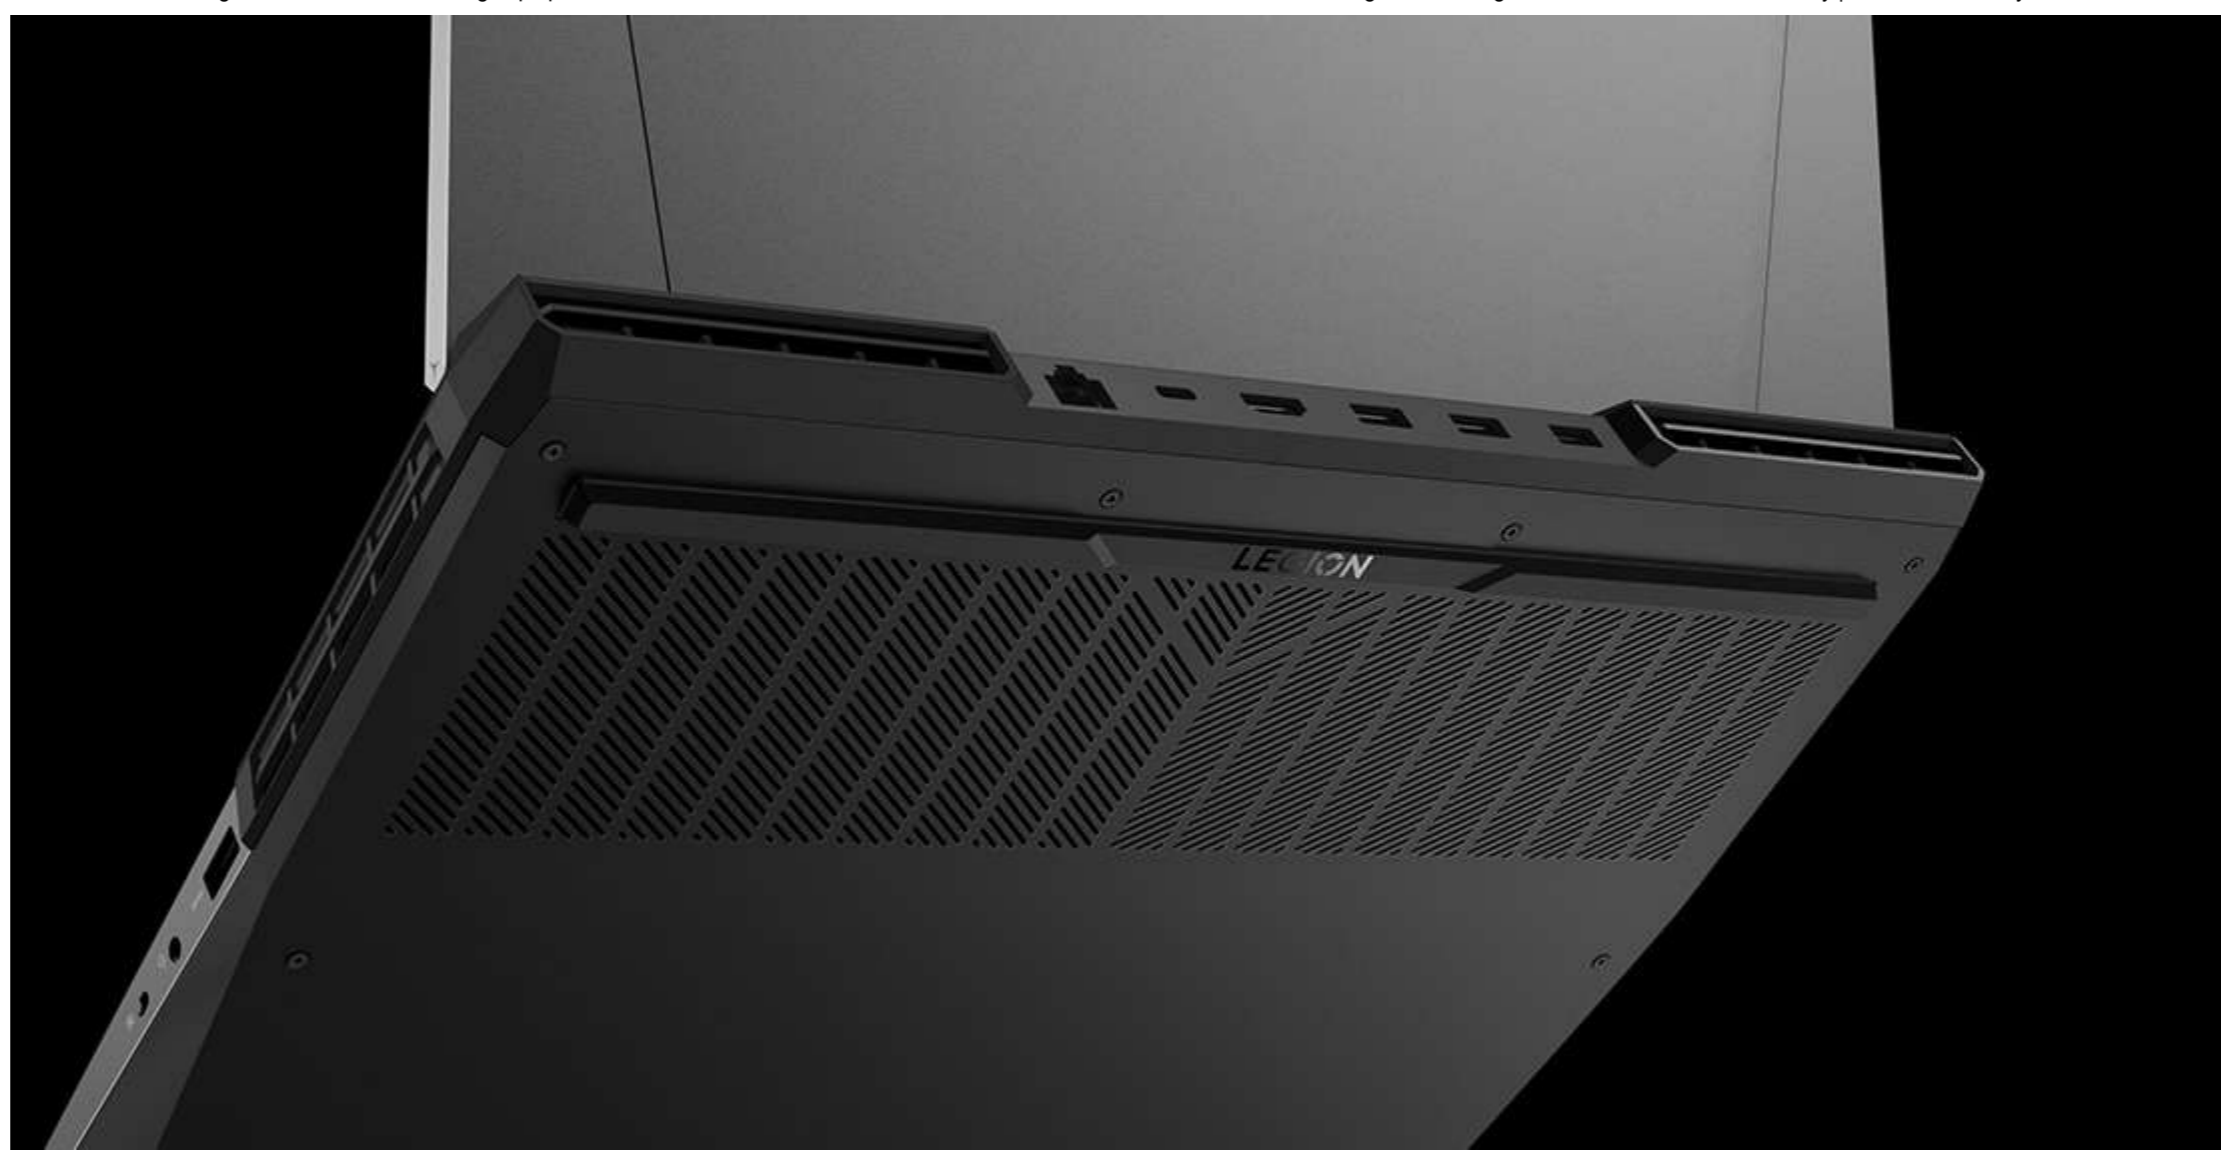

Unleash your inner beast with DDR5

At last, DDR5 is here. Push your gaming past what's possible with 2x the bandwidth of DDR4 and tremendous increases in framerate reliability and system power efficiency. Tap into superior resource allocation and improved battery life. And, with up to 32GB of DDR5 memory, the Legion 5i Pro (16" Intel) lets you fully embrace the latest in advanced gaming technologies.

Defeat the heat, and all that's in your way

With its expansive five-heat pipe layout, the Legion 5i Pro (16" Gen 7) also has a 140% more powerful fan system with 40% thinner fan blades than its predecessor. The Legion Coldfront 4.0 thermal system gives you three ways to control CPU and GPU temperatures and reduce overall fan noise. And with a dedicated CPU copper heat transfer block, it's one quick, cool, and quiet beast.

Send your nemeses packing, in style

The Legion logo graces an aluminum and magnesium chassis on an aggressively engineered and I/O optimized machine. Competitive at all costs, dialed in to win, and designed to destroy. Now, you can enjoy the sweet smell of victory in Storm Gray or Glacier White. Just remember to design your winning trophy to match.

Strike with speed, play with precision

Thanks to innovative soft-landing switches, the Legion TrueStrike keyboard delivers deep 1.5mm strokes with equal force and 100% anti-ghosting. Strike with extreme precision at hair-trigger speed every time. Or take things to the max with the illuminated 4-Zone RGB backlit Legion Spectrum keyboard optional with a full-size number pad and larger arrow keys.

Truly immersive, game-changing audio

With its immersive 3D audio and vibrant, rich, and engaging features, Nahimic Audio drastically improves your gaming enjoyment from the get-go. It also enables you to communicate crystal-clearly with teammates for the perfect in-game experience. What's more, it lets you mix and share audio-streaming journeys like a professional, with ease.

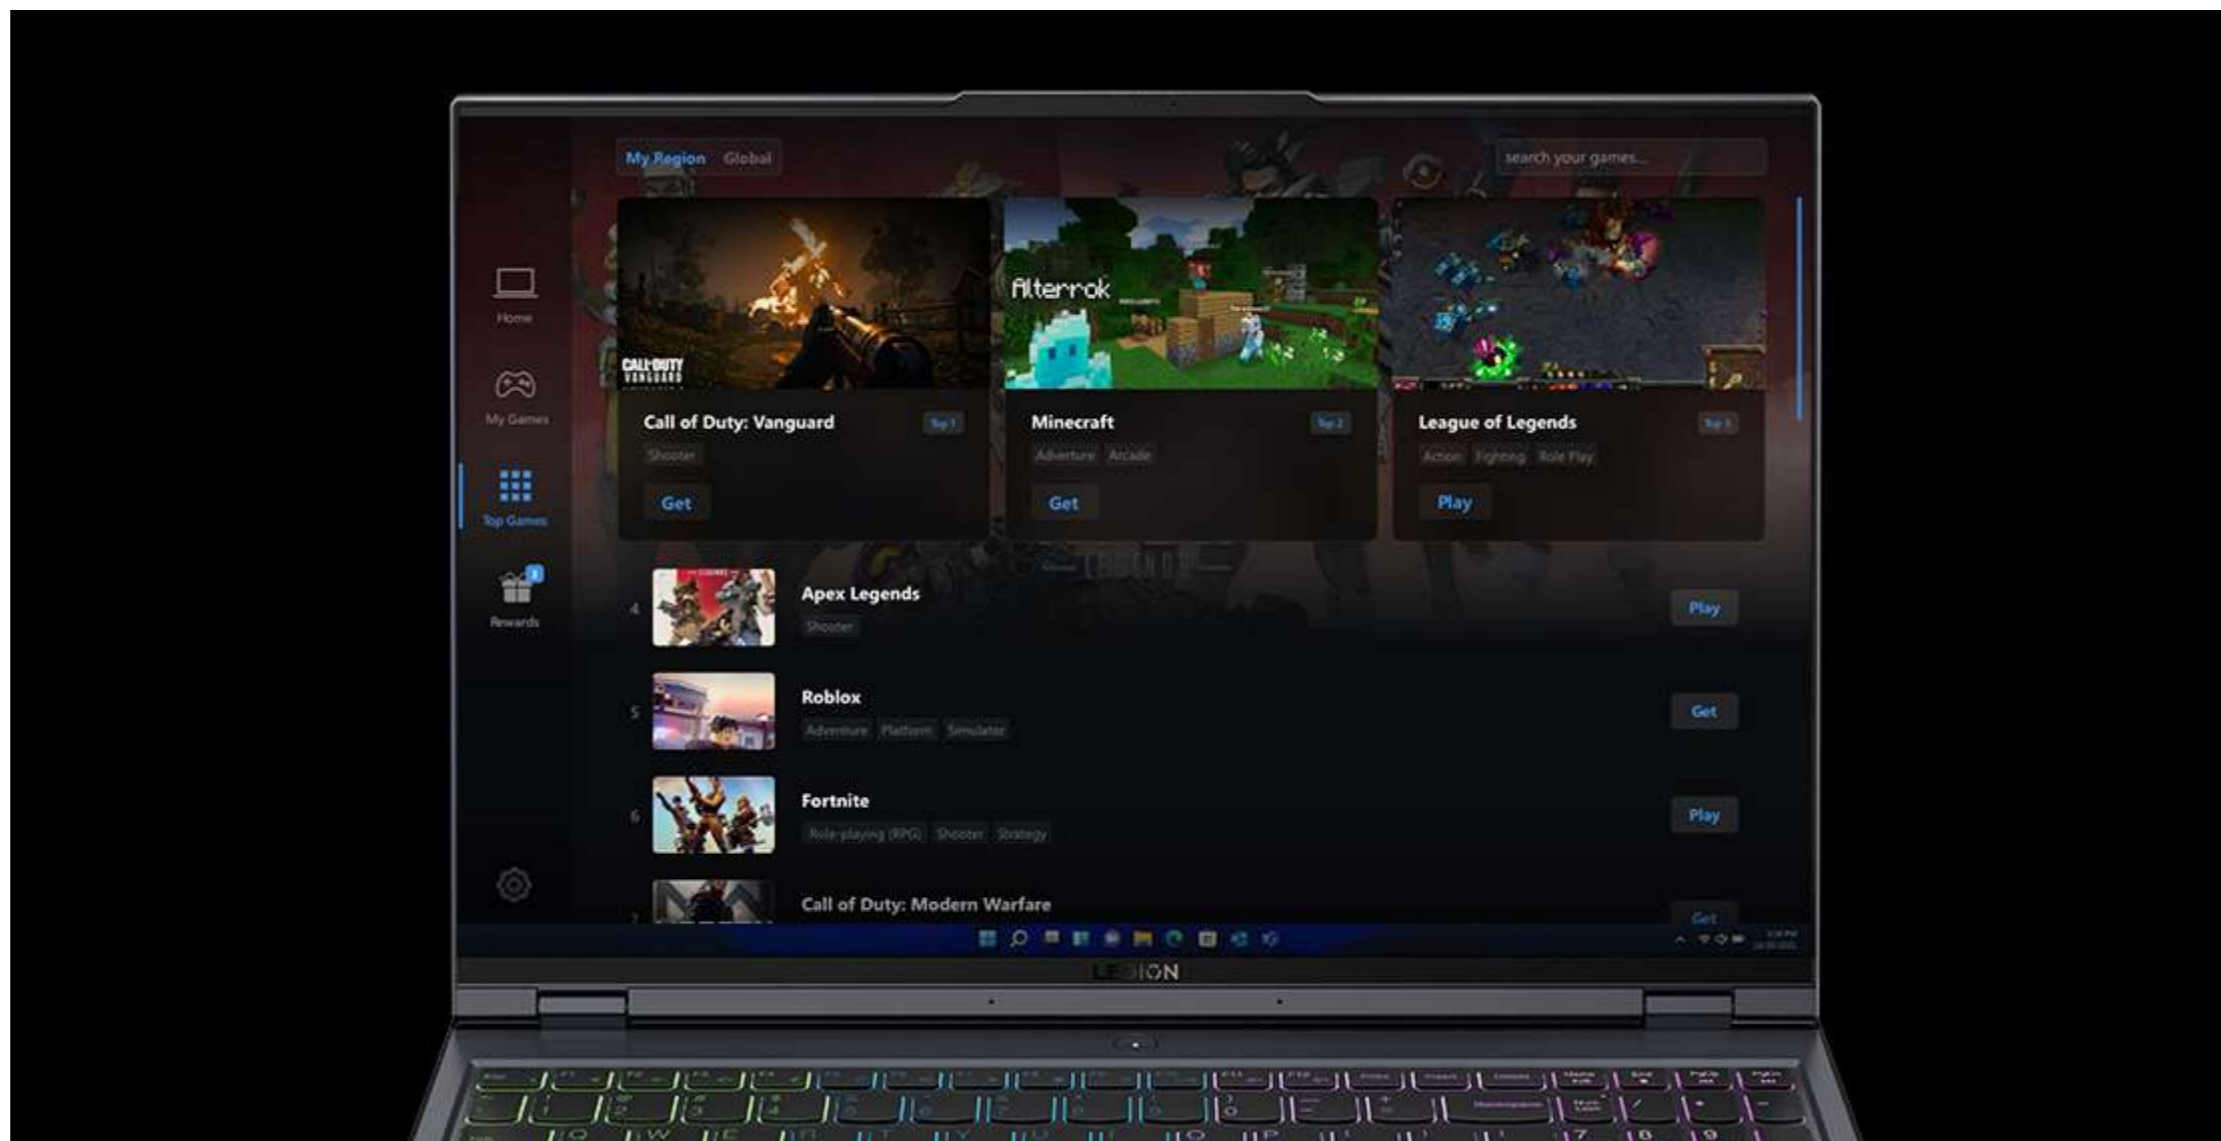

Embrace the Lenovo Vantage

Lenovo Vantage helps you optimize settings to elevate your gaming experience. You can adjust, customize, and maximize your laptop's capabilities through our all-in-one suite of tools. With our real-time performance dashboard, overclocking controls, and AI-performance tuning with intelligent fan controls, nothing stands in the way of your success.

Enter the Legion Arena, enter the big time

Legion Arena lets you access all your games in one place, no matter where you purchased them from. See what other games are playing. Earn playing rewards and gaming achievements. Don't waste time switching between different apps to see what to play. Just go ahead and play your games from their new home, the Legion Arena.
