## Specifications

Brand	Hp
Generation	13th Generation
Processor Type	13th Generation Intel Core i3-1315U Raptor Lake (10 MB Cache)
Processor Speed	1.2 GHz up to 4.5 GHz with Intel® Turbo Boost Technology (Total Cores 6 # of Performance-cores 2 # of Efficient-cores 4, 8 Threads)
Installed RAM	4 GB
Type of memory	4 GB DDR4-3200 MHz RAM (1 x 4 GB)
Hard drive size	256 GB PCIe® NVMe™ M.2 SSD
Hard drive speed	-
Optical Drive	No
Type of optical drive	-
SSD	256 GB SSD
Type of harddrive	256 GB PCIe® NVMe™ M.2 SSD
Dedicated graphics	No
Graphics memory	Integrated, Intel® UHD Graphics
Type of graphics memory	Shared
Switchable graphics	No
Graphics processor	Intel
Backlight	LED
Screen size	39.6 cm (15.6") diagonal, FHD (1920 x 1080), micro-edge, anti-glare, 250 nits, 45% NTSC
Screen surface	39.6 cm (15.6") diagonal, FHD (1920 x 1080), micro-edge, anti-glare, 250 nits, 45% NTSC
Screen resolution	1920x1080
Touchscreen	No
Color	Silver
RAM	4 GB
Weight	1.59 kg

<b>Fingerprint Reader</b>	No
<b>Numeric keyboard</b>	Yes
<b>Backlit keyboard</b>	No
<b>Bluetooth</b>	BT 5.3
<b>LAN</b>	No
<b>Speed</b>	-
<b>Wireless/Wifi</b>	Yes
<b>Type</b>	MediaTek Wi-Fi 6E MT7902 (1x1)
<b>Condition</b>	New
<b>USB</b>	1 USB Type-C® 5Gbps signaling rate (supports data transfer only and does not support charging or external monitors); 2 USB Type-A 5Gbps signaling rate
<b>HDMI</b>	1 HDMI 1.4b
<b>Camera</b>	HP True Vision 720p HD camera with temporal noise reduction and integrated dual array digital microphones
<b>Operating system (Primary)</b>	DOS
<b>Manual</b>	<a href="https://www.hp.com/emea_middle_east-en/products/laptops/product-details/product-specifications/2102004988">https://www.hp.com/emea_middle_east-en/products/laptops/product-details/product-specifications/2102004988</a>

<b>Warranty</b>	International

## Details

### HP 15 FD0336nia 13th Generation Core i3 Laptop in Pakistan

Reimagine your computing experience with the **HP 15 FD0336nia Core i3 Laptop**, designed to cater to users with light computing demands. Ideal for tasks such as content consumption, working with spreadsheets, text documents, and more. It is tailored to meet the needs of students, employees, or professionals in sectors that require efficient and light computing. Underneath, it is powered by the latest Raptor Lake Processors from Intel, optimized for efficient performance to ensure the device lasts longer.

#### Design

The design of the product closely resembles other HP products, featuring an overall simple and minimal appearance without sharp curves or edges. The lightweight design allows for easy portability. The weight is evenly distributed across the entire notebook, making it secure to lift with a single hand from any point on the device.

#### 13th Gen Raptor Lake Processor

The HP FD0336nia laptop's performance is driven by the Intel Core i3 1315U, a HexaCore Processor with 10 MB of Intel Smart Cache. The setup includes 5 efficiency cores and 1 performance core, illustrating Intel's focus on efficiency to ensure the package lasts a long time. This emphasis on efficiency doesn't compromise performance, as the CPU excels in modern high-density tasks with ease. The unit is optimized at a clocked CPU speed of 1.2 GHz, which can boost up to 4.5 GHz when needed, thanks to Intel's Turbo Boost Technology.

In terms of memory handling, it can easily manage DDR4 at a maximum transfer rate of 3200 MT/s. For graphical support, it features discrete Intel Iris Xe graphics, tuned to function as UHD graphics. These graphics specialize in handling all graphics-associated tasks, such as gaming or 3D modeling, to the best of their capabilities.

#### Memory and Storage

To facilitate smooth multitasking across multiple Windows applications or browser tabs, the **HP 13<sup>th</sup> Generation laptop** is equipped with a DDR4 setup that fully utilizes the CPU's memory control, running at 3200 MT/s with a capacity of 4 GB. To ensure longevity, the RAM can be upgraded either at the time of purchase or later when needed. The upgrade options range from the provided 4 GB to 32 GB, arranged in a dual-channel configuration.

The storage drive included in the package is a PCIe NVMe M.2 Solid State Drive with a capacity of 256 GB, offering ultra-fast read and write speeds for rapid data transfer. Similar to the RAM, the storage capacity can be extended to a maximum of 2 TB with fast M.2 storage after upgrading.

#### Display

The singular hardware piece serves as the focal point for observing all processing or consuming content on the expansive 39.6 cm (15.6-inch) diagonal display, delivering Full HD resolution at 1920 x 1080. The micro-edge bezels contribute to a maximum screen-to-body ratio. The screen features an anti-glare surfacing treatment, eliminating reflections and achieving a maximum brightness of 250 nits. This enhancement not only minimizes distractions but also enhances the displayed content, covering 45% of the NTSC color space. This makes it optimal for a variety of non-color grading applications.

#### Keyboard and Trackpad

The keyboard and pointing device setup for the notebook include a full-size keyboard with backlit functionality, aiding visibility in darker surroundings. The keyboard has a soft grey appearance and features a numeric keypad on the side. The fully clickable Imagepad comes with multi-gesture support for Windows.

#### Other Specs

Uplifting the content consumption experience are the front-firing dual speakers, providing an immersive experience. The webcam included is a True Vision HD camera, recording at 720p. It utilizes software for temporal noise reduction and features an integrated dual array of digital microphones.

For external connectivity, the **Core i3 13<sup>th</sup> Gen laptop** offers 1 USB Type-C port with a 5 Gbps signaling rate supporting data transfer only (not charging or external monitor output), 2 USB Type-A ports with a 5 Gbps signaling rate, 1 AC smart pin, 1 HDMI 1.4b port, and 1 headphone/microphone combo jack. The wireless network is supported by the MediaTek Wi-Fi 6E MT7902 (1x1) and Bluetooth® 5.3 wireless card, supporting a gigabit data rate.

The power source for the HP 15 is a 3-cell Lithium-Ion Polymer battery with a capacity of 41 Wh. Thanks to the power-saving measures implemented by the CPU, the battery life is guaranteed to be around up to 2 hours and 30 minutes.

#### Buy HP 15 FD0336nia Laptop in Pakistan

Brand New HP 15 FD0336nia 13th Generation Core i3 Latest Price in Pakistan is Rs. 111,500 . Paklap offers free cash on delivery service in Lahore, Karachi & Islamabad.
