The Victus by HP Laptop is made for peak PC gaming. This sleek machine touts a 14th Gen Intel® Core™ processor[1] and modern NVIDIA® graphics card. This laptop also has new optimization features to push performance even further[2], updated thermals, and an upgraded keyboard.

### The best and latest performance components

Unlock better gaming with a 14th Gen Intel® Core™ processor[1], a modern NVIDIA® graphics card, and up to DDR5 memory.

### Optimization features for even better performance

Victus makes better performance easier with features that automatically optimize your gaming while you play.

### Express yourself with an upgraded keyboard

For the first time in a Victus, you can upgrade to a backlit keyboard and express your best gaming self.

### Sustainability in action

EPEAT® Gold[3] and ENERGY STAR® certified.

**Up to QHD DISPLAY**

Get lost in the captivating definition and ultra-sharp details of 3.7 million pixels. The 2560x1440 resolution transforms all your content for a remarkable entertainment experience.

**100% sRGB**

Showcase your creations in all their colors on the 100% sRGB display for maximum color breadth and accuracy.

**GO BEYOND FAST**

**NVIDIA® GeForce RTX™ 4070**

Powered by Ada Lovelace architecture which delivers a leap in performance and AI-powered graphics. Experience lifelike virtual worlds with improved ray tracing and ultra-high FPS gaming.

240HZ

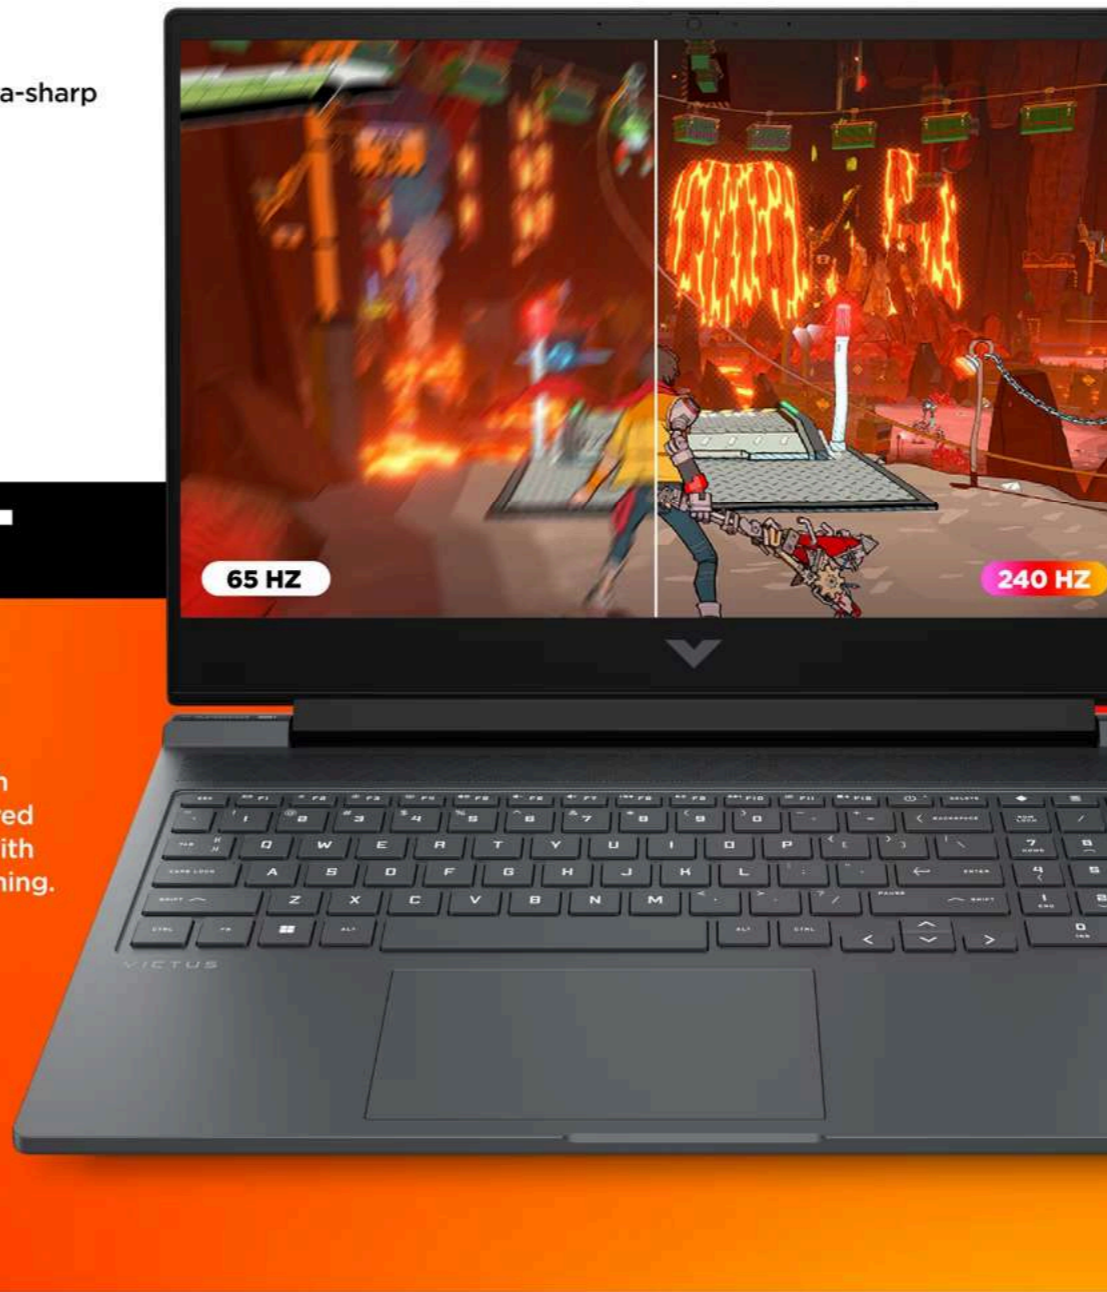

**Up to 240HZ REFRESH RATE**

Reduce frustrating lag and image ghosting with a 240Hz display.

3ms

**Up to 3MS RESPONSE TIME**

With a 3-millisecond response time, your action-filled gameplay will look crisp and fluid without motion blur.

**GAME WITHOUT COMPROMISE**

**Up to INTEL® CORE™ ULTRA 9**

Be everything you want to be, in-game and out with optimized performance and new features. Play harder and work smarter with Intel® Core™ Ultra Processors.

32 GB

**Up to 32 GB DDR5-5200 RAM**

Massive bandwidth and additional cores break through limitations for fully realized performance.

1 TB

**Up to 1 TB PCIe® Gen4 NVMe™ TLC SSD**

PCIe-based flash storage is up to 30x faster than a traditional 5400-rpm hard drive.

**DUAL SPEAKERS TUNED BY HYPERX**

Specially tuned for elevated clarity and spectral balance so crucial sounds like footsteps and in-game cues are clearly audible.

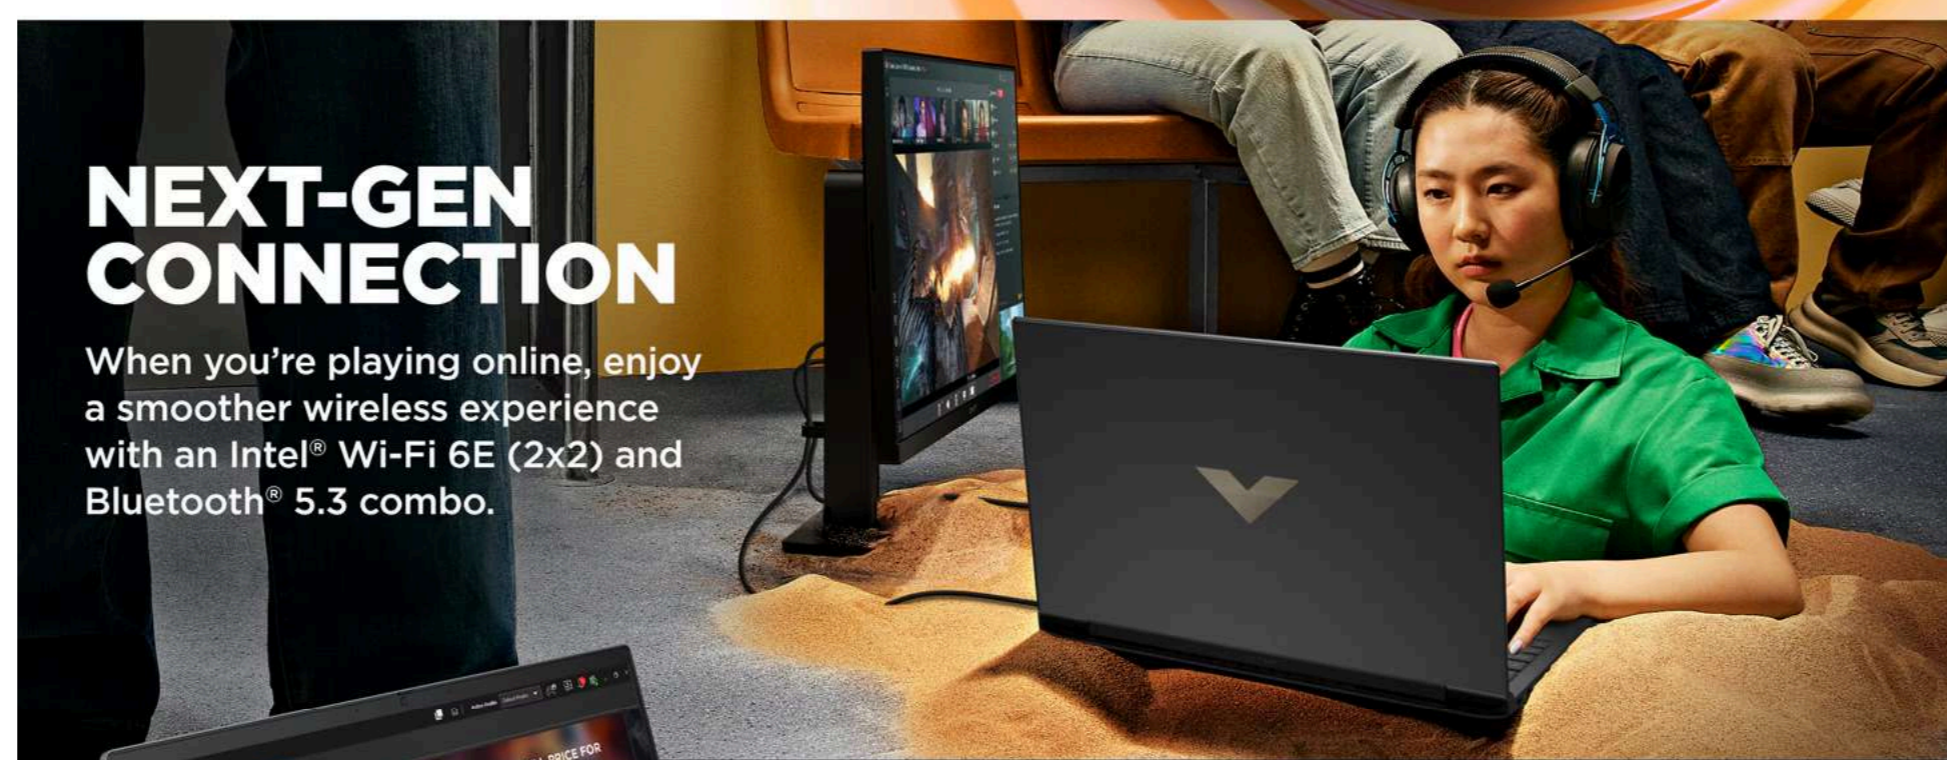

**HP AUDIO BOOST 1.0**

Smart amplification technology gives you loud, clear, and dynamic sound.

**NEXT-GEN CONNECTION**

When you're playing online, enjoy a smoother wireless experience with an Intel® Wi-Fi 6E (2x2) and Bluetooth® 5.3 combo.

**OMEN GAMING HUB**

**ELEVATE YOUR GAMING EVERY TIME YOU PLAY.**

This all-in-one suite seamlessly combines performance optimization, personalization tools, plus game content and services to unlock an unparalleled gaming experience.

OFFERS

**FREE Storewide Shipping**

HP offers free standard shipping storewide

#### FEEDBACK

Product Disclaimers

#### OVERVIEW

- [1] Multi-core is designed to improve the performance of certain software products. Not all customers or software applications will necessarily benefit from the use of this technology. Performance and clock frequency will vary depending on application workload and your hardware and software configurations. Intel's numbering, branding, and/or naming is not a measurement of higher performance.
- [2] Colors may vary by region. Check with the local region or country for availability.
- [3] Based on U.S. EPEAT® registration according to IEEE 16801:2018 EPEAT®. EPEAT® status varies by country. Visit [www.epeat.net](http://www.epeat.net) for more information.

#### SPECS

- [5] Recharges your battery up to 50% within 30 minutes when the system is off (using "shut down" command). Recommended for use with the HP adapter provided with the notebook, not recommended with a smaller capacity battery charger. After charging has reached 50% capacity, charging speed will return to normal speed. Charging time may vary +/-10% due to system tolerance. Available on select HP products. See <http://store.hp.com> for a full list of product features.
- [6] Percent of active plus nonactive viewing area to active viewing area plus border. Measure with lid vertical to the desk.
- [9] For best results with HP Sleep and Charge, use a USB charging protocol standard cable or cable adapter with an external device.
- [23] Actual battery Watt hours (Wh) will vary from design capacity. Battery capacity will naturally decrease with shelf life, time, usage, environment, temperature, system configuration, loaded apps, features, power management settings and other factors.
- [37] Weight and system dimensions may fluctuate due to configuration and manufacturing variances.
- [38] Percentage of ocean-bound plastic contained in each component varies by product.
- [41] Keyboard components contain post-consumer recycled plastic. Percentage of post-consumer recycled contained in each component varies by product.
- [42] For optimal performance and battery chargeability while gaming and rendering, use the power adapter that ships with the PC. You can use the 100W/20V Type-C adapter or power bank when running light loading tasks. System off charging is only supported on 20V Type-C adapter or power bank.
- [45] The Flicker-free capability is eliminating screen flickering through integrating DC-dimming LED backlighting or LED emissions. OLED panel is functional with DC-DIMMING when above 100nits.
